

Gender Awareness and Gender Mainstreaming in Forestry Sector Project

Funded by DANIDA

Implemented by FA Gender Working Group

Prepared by Ms.Vong Sopanha

Problem statement

- Less women participated in forestry,
- Number of women in leadership is less,
- Women have limited roles in CF management.

Overall Objective:

Improve gender equality in forestry sector through trainings.

Project Plan

Descriptions	2011	2012
Target areas	13 provinces	10 provinces

Classroom Activity (Group Discussion)

Preah Vihear

Classroom Activities in Siem Reap

Field Activities in Siem Reap

Activities in Pursat

Outputs

Year	Target group	Location	Number of Trained Participants
2011	FA staff	Sihanoukville& Koh Kong, Pursat, Stung Treng, Kampong Thom, Kratie, Kampong Cham, Siem Reap, Kampot, Batambang, Odar Meanchey, Banteay MeanChey, Mondokiri(13)	433
2012	FA Staff	Kampong Chhang, Ratanakiri, Preah Vihear (3)	65
	Member of CF	Siem Reap, Pursat (2)	60
Total		18 provinces	558

Outcomes

- Expect participation of women in forestry sector increase,
- Better local forest management plan,
- Expect to improve the relationship between local FA (head of seedling nursery) and community forestry.

Recommendation From Participants:

- Need more different topics
- The period of training course should be longer.
- Please provide such training course to other communities.

Lesson learnt

- Participation of women in forest sector is less than men because of cultural barrier, low education, less support.
- Capacity building on gender and seedling nursery technique is important.

Thank You
